Digital Citizenship Plan | 2026-2027

Stanley Jones School

Calgary Board of Education

Digital citizenship is about using technology and participating in digital environments. It is key to helping our students learn to use available technology responsibly in the classroom and beyond. This Digital Citizenship Plan addresses how we work to build a community where we live and work together as digital citizens.

Relevant contextual information about our school and School Development Plan:

- K-9 school with a diverse population - K-6 community school & 4-9 Alice Jamieson Girls' Academy (AJA)
- STEAM based learning in AJA
- Students have access to MacBooks, Chromebooks, and iPads to demonstrate learning
- School Development Plan Goal: Student academic achievement will improve through varied assessment practices

Relevant evidence and data that informs our Digital Citizenship Plan:

- Many early learners are new to using digital tools for learning
- Middle school learners are more advanced in using digital tools for learning and need to focus on a balance of technology use
- Students need support in balancing their screen time
- Students must maintain a positive digital presence when working and posting online

Long Term Goal	Competency	Short Term Goals	Outcomes	Activities & Resources	Measures
Long term goal #1 Learners will understand the importance of protecting personal information online and apply appropriate strategies	**Safe** I know how to protect my personal information online	**Short term goal** Students will understand the importance of being safe and keeping their passwords secure and private	Students will use technology appropriately, making responsible decisions in their technology use	Students will learn how to reset passwords using the Student Account Tool Review resources on Digital Citizenship Insite Pages	All students in the school will have a unique, secure password to access CBE network and technology

Long Term Goal	Competency	Short Term Goals	Outcomes	Activities & Resources	Measures
			Students will not share their passwords with anyone Students will be safe online and only communicate with people they know	Teachers to have discussions with students about proper technology and online etiquette at school	Students keep their online information private
Long term goal #2 Students will monitor their technology use and time online to promote positive social-emotional learning	**Balanced** I balance time online and offline to promote positive mental, emotional and physical well-being	**Short term goal** Students will understand the physical, social and emotional effects of long-term technology overuse	Students will be respectful in day-today interactions Students will communicate appropriately through technology Students will spend time getting to know their peers, engaging in face-to-face conversations Students will follow the digital citizenship policy regarding cell phone use at school Students will identify physical and mental signs that indicate a break from technology is needed	Teachers will incorporate student voice into decisions Discussions and direct teaching regarding the impact of technology use on students' well-being Review resources on Digital Citizenship Insite Pages	An increase in students advocating for breaks in technology use Students can reflect and articulate their well-being related to their technology use Increased classroom engagement CBE Student Well-Being Survey
